CONTACT

ABOUT

Our focus is on projects that are uniquely complex or technically challenging - work that other players often cannot undertake. "There is a difference between winning a project and being invited to a project."

In this area, we bring the professional experience of our colleagues, unique knowledge of materials and an uncompromising approach, while always putting our clients' individual ideas and needs at the centre of our design and construction.

From 2025, we started selling custom-made European furniture alongside our own-made furniture.

FACTS

- » The best known woodworking company in Hungary
- » Quality solutions for truly unique needs
- » Furniture design, production, project management in one place
- » International award winning furnitures
- » Key supporter of education - Mw Design Award for graduating woodworking students annually
- » European supplier partners for chairs, upholstered furniture
- » We respond to our customers' requests within 24 hours

WHAT WE DO FOR CUSTOMERS

Each client's needs are unique, but **meeting deadlines** and **ensuring high quality** is the basis of all our work. We complement these with additional services:

- » Online project management with the client, together with the interior designer - **full transparency**
- » Client and work follow-up after the first and 5th year - **guarantee and confidence**
- » Discounts on products from our foreign partners - **extra offers**
- » We also coordinate joint work with other specialist areas on the ground - **efficiency**

We are striving to replace petroleum derivatives with **bio-oils** in the spirit of environmental awareness.

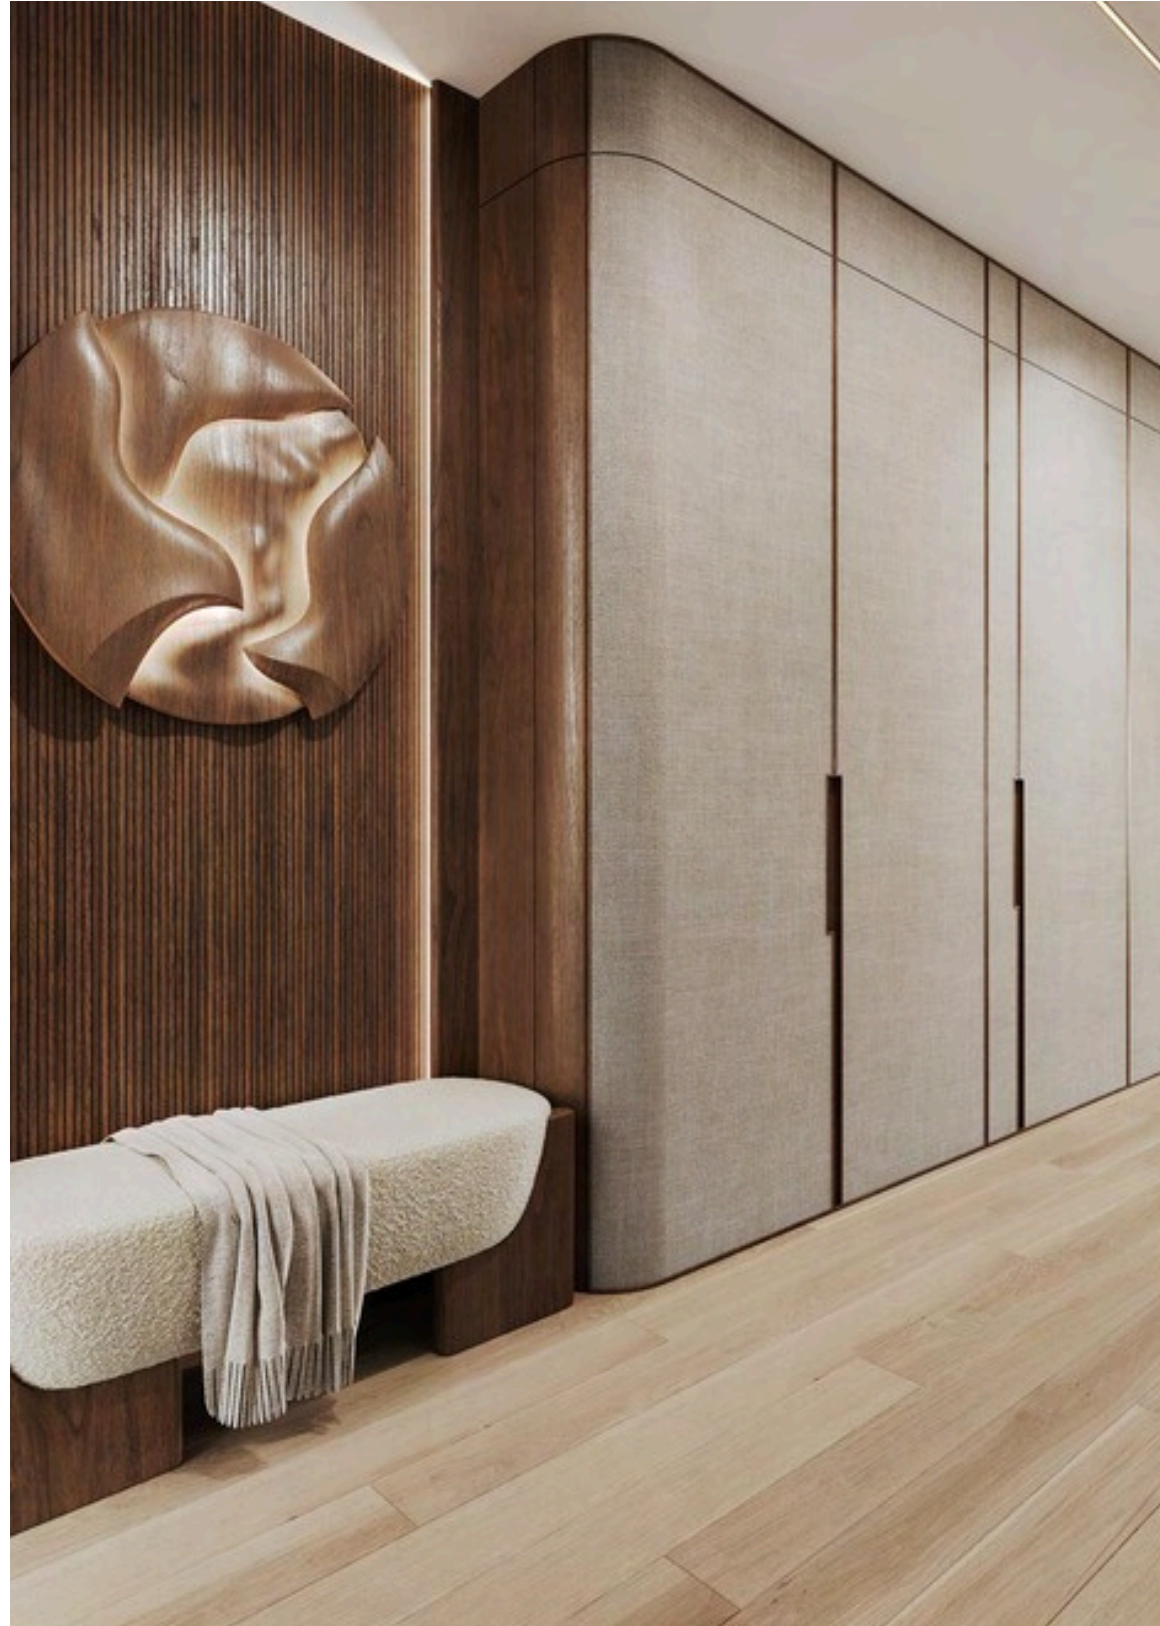

PORTFOLIO

We are particularly proud of the fact that we now cover the whole spectrum of interior design - our furniture can be found as built-in solutions or as characterful freestanding pieces in private homes, international hotels and offices.
